ABOUT

A third-year B.Tech student in AI and Data Science at Stella Mary's College of Engineering, with hands-on experience in building full-stack applications. My technical skills span from front-end development with React, HTML, CSS, and JavaScript to back-end frameworks like Flask. I am adept at creating responsive and dynamic web interfaces while continuously building my knowledge in data analysis and machine learning. I am a driven problem-solver, passionate about leveraging technology to create meaningful user experiences and practical solutions.
